

DFM
DOORS

INNOVATIVE SAFETY & SECURITY DOORS

WE ARE YOUR DOORS TO SAFETY

GLAZED DOORS DFM GD

DFM makes fire resistant frame-and-glass doors and fixed partitions known on the markets under brand **DFM GD**. These fire barriers, properly tested and certified, are available in classes E, EW, EI and as non-fire rated, and can be applied as interior or exterior products.

There is no limit to freedom of forms, the architect's imagination can run free.

Apart from traditional projects – doors and windows for historical building or those of classical architecture are available, including arch-shaped partitions.

- various glass sets allow to fulfill requirements of acoustic and thermal insulation (low U index)
- hardware and equipment ensuring access
- anti burglary protection (RC1-RC4)
- bulletproof (FB4-FB7)

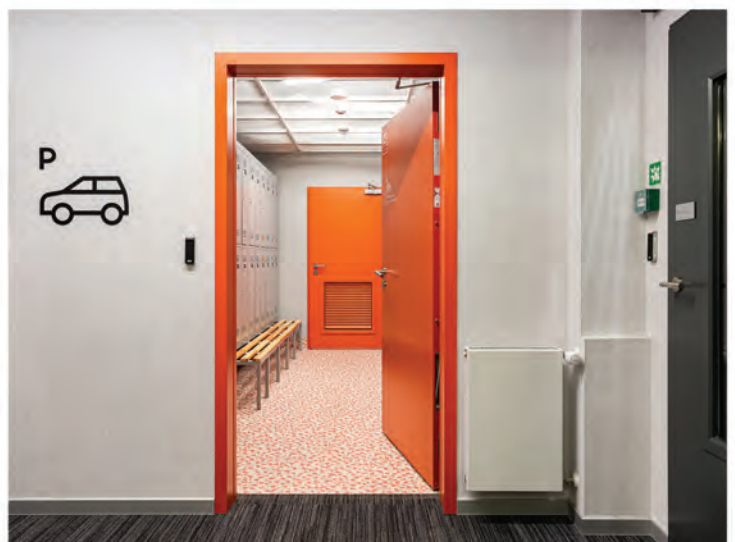

STEEL DOORS DFM DS / DFM OS

Fire resistant steel **DFM DS** doors are highly regarded in European markets. They are a great solution for all building projects, internal and external applications due to their innovative design, construction and specifications.

What makes DFM DOORS unique:

- innovation – light steel wings with aluminium frames
- highest standard – stainless steel hinges and other non-corrosive elements
- durability – class 3 and 4 according to reg. EN1192, mechanical durability up to 1,000,000 cycles
- acoustic feature $R_w = 36 : 42 \text{ dB}$
- corrosion resistant in class C3 to C5 (Marine)
- cold resistance – low U-value ($0,9\text{-}1,3 \text{ W/m}^2\text{K}$)
- delivered in any color, also in a wood-like finish

Functionality codes, accessories and aesthetic features are customized for particular project needs:

- flush design/wall embracing frames
- ventilated-grills, fire retardant
- vision panels in variety of sizes
- electrically locked
- equipped with hardware for evacuation
- available with other miscellaneous equipment
- also available in large sizes (**DFM OS**) – up to 5080 x 5080 mm

We call it DFM DEFENCE - our doors are:

**BURGLAR
RESISTANT**
in classes RC3, RC4

**FIRE
RESISTANT**
up to 120 minutes

**BULLET
PROOF**
in classes FB4-FB7

**COLD
RESISTANT**
(0,9-1,3 W/m²K)

DFM DOORS - quality you can trust!

- automatised production
- professional CNC machinery
- experienced R&D and production team
- EU and international certification

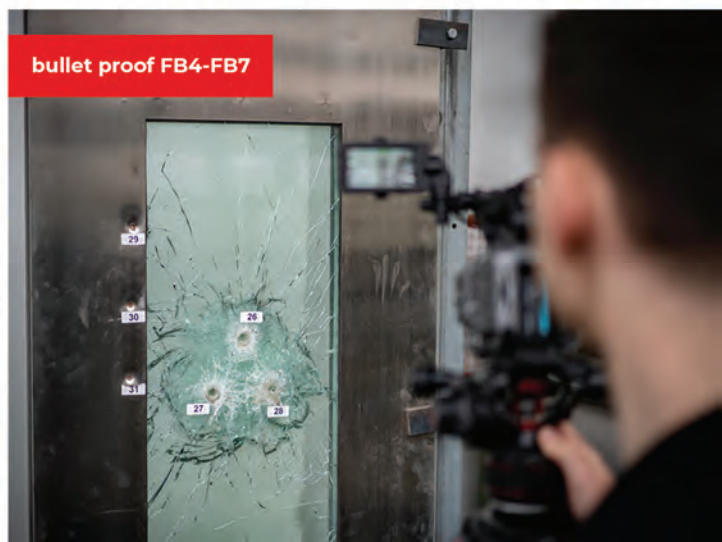

burglar resistant, wood-like finish

production using CNC machines

evacuation equipment

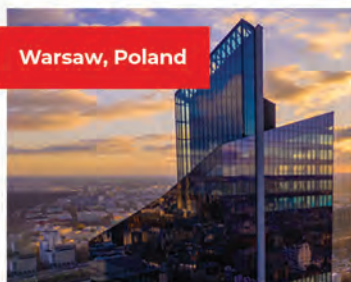

bullet proof FB4-FB7
